FriendsHUB

Dhruv Bahl
Eddie Prestegui
Abraham (absent)

Personas:
- Jamie Lannister (Parent) : He might wanna know the live location of his kids with a better zoom in focus.

- The starks (a friend group) : might wanna check where their friends logged in or what they are doing.

- Joffrey Lannister (Teenager) : might wanna know if his friends reached home safe.

- Delilah Stone (College student): As a new college student she is excited to meet new friends and have new experiences when going to college. Also document her college experience online.

Scenarios:
Jamie Lannister: Jamie can ask his kids whenever they hang out with friends if they he can have access to their zoomed-in live location for him to feel safe as a parent.

The starks: With the ability to make groups and share what they are doing. Our project will give friends a sense of social media.

Joffrey Lannister: Joffrey might be wondering if his girlfriend reached home safely after them studying together for an exam. It can provide him a notification saying that his girlfriend arrived at home.

Delilah Stone: Delilah can check-in about her social life and places that might attract other college students to be friends with her. Also if she feels lonely she could always refer back to her new friends and build their relationship.
